# TIC TAC TOE!

## How to Play:

You are X, your friend is O. The first player to get 3 of their marks in a row (up, down, across, or diagonally) is the winner. When all 9 squares are full, the game is over.

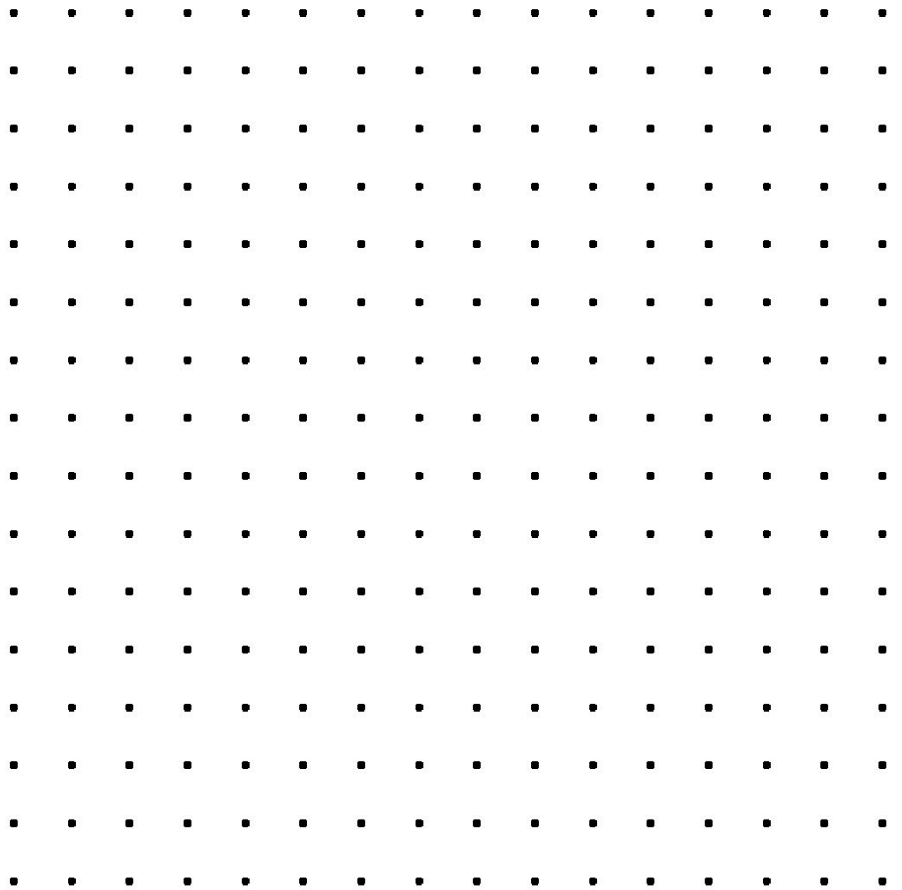

# Dots and Boxes Game!

## How to Play:

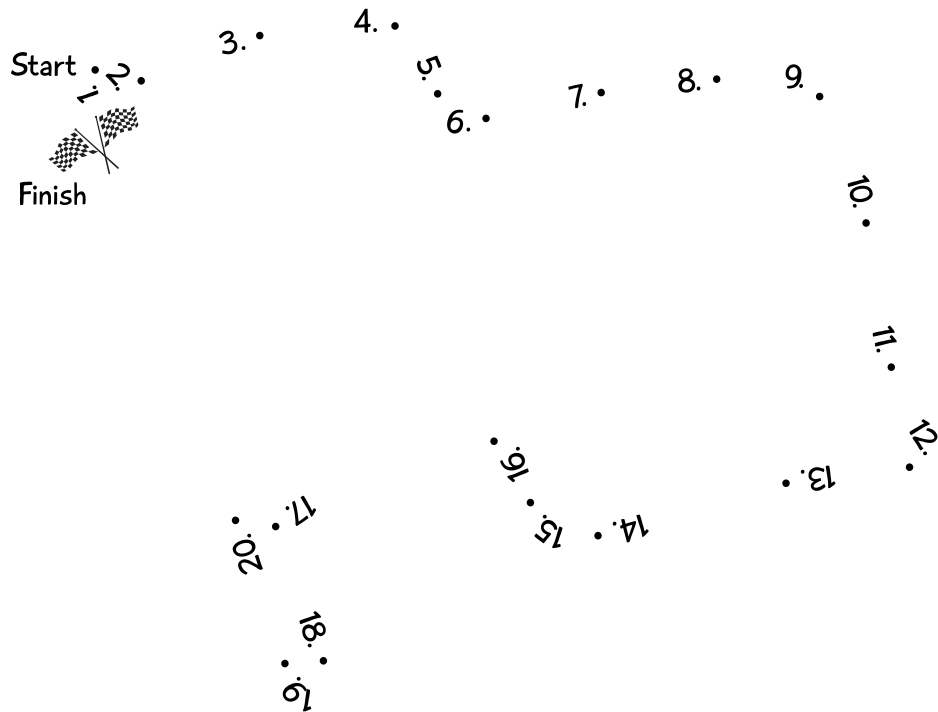

Draw rows of dots, separated by a good half inch. Each player takes a turn connecting one dot to another adjacent dot horizontally or vertically, one move at a time. After a while, the board begins to fill with a series of horizontal and vertical lines, some connected, some not. When a player draws a line that forms a square, that player fills the square with their first initial. The player, who drew the closing line on the square, gets another turn.

## Objective:

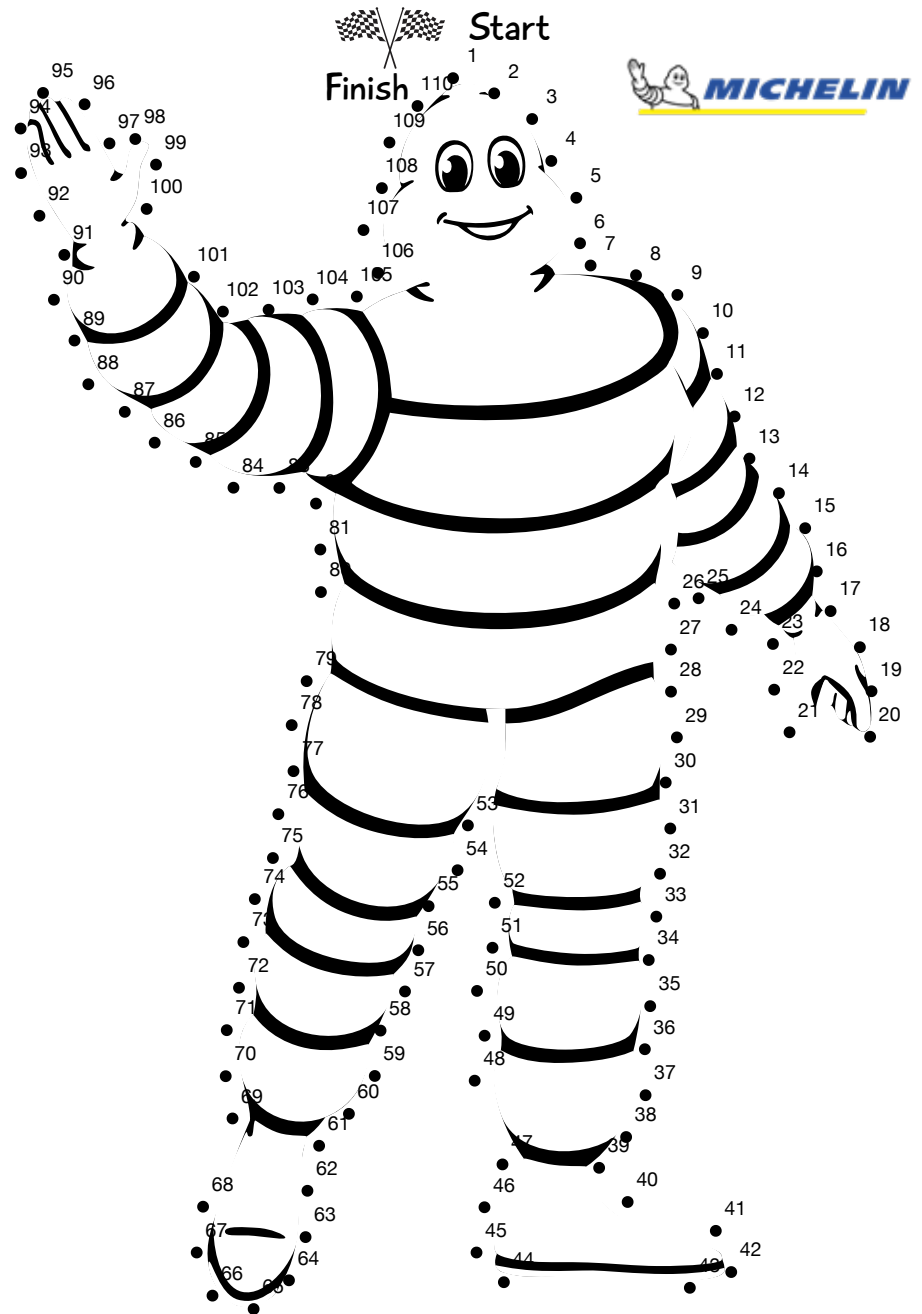

The game is played until all the dots become boxes, and the player with the most boxes completed at the end becomes the winner.

1. Connect the dots! 2. Read the clue. 3. Fill in the blank.

This \_\_\_\_\_ colored \_\_\_\_\_ is waved to start the race!
