

OUTSIDE SERVICES OFFERED AT VIR

The following services are offered by persons and/or entities that are neither owned nor controlled by VIR. VIR provides this information solely as reference to the Renter, but neither recommends these services nor in any manner guarantees performance or the nature, quality, safety or any other characteristic of services provided by these persons and/or entities. If Renter or any of its Participants decide to use any of these services, they do so at their own risk and agree to release and indemnify the VIR Parties from any liability in the same manner as provided in Paragraph 8 of this Agreement.

GCAPS (Global Center for Automotive Performance Simulation) – The Global Center for Automotive Performance Simulation (GCAPS) provides accurate and affordable models to support virtual development for the transportation industry. Our simulation group, which has significant experience ranging from graphic design to tire mechanics, is an important aspect of our successful model creation. These models—including tire models, vehicle models, and environments—are created from both customer data sources and physical testing performed in our own advanced testing facilities which feature the world’s most capable indoor flat-trac machine. Our physical testing expertise has led to research and new modeling methods for improved products delivered to our customers, including leading global vehicle manufacturers, tire manufacturers, and championship motorsports teams. These clients have used our model and testing services to elevate their performance in vehicle handling, autonomous vehicle technology, and many other aspects of transportation simulation. Collectively, our vast experience in controls development, vehicle simulation, model creation, and physical data interpretation will help any company in the transportation industry excel. Contact Jon Darab, Director GCAPS, at 434-766-6644 or jdarab@gcaps.net.

Kaizen Autosport - Kaizen Autosport is one of America's premier track driving operations located at VIR. Kaizen Autosport offers a wide array of activities catering to driving enthusiasts and racing fans who want the ultimate racecar driving experience, to experienced HPDE and aspiring race drivers wanting to go faster and win races, to companies seeking adrenaline-filled corporate events.

Kaizen Autosport’s array of driving options include:

- Racecar driving experiences for individuals and corporate outings featuring modern downforce open-cockpit racecars, with incredible cornering and braking and the rush of screaming engines.
 - Over 20 track prepped GT track cars and racecars to rent for track days The rental program offers our drivers trackside support, daily hospitality, driver’s lounge, and one-on-one coaching services including data/video lap analysis.
 - 5-Star racing and high-performance driving school accredited to grant licenses for SCCA, NASA, and SVRA. We offer courses for novice and experienced drivers. School focuses on car control practice, weight transfer techniques, racecraft, situational awareness drills, passing drills, corner entry and exit speeds optimization, and lots of practice starts and races with wheel-to-wheel track time with instructors.
 - Driver development and pro coaching with data/video analysis
 - Customer arrive and drive VIP program with full support to store, prep, maintain and track customer’s car including trackside support, hospitality including driver lounge, car setup, and optional coaching services. Our program has expanded with sales and support for Ginetta’s exciting line of racecars featuring the G56 GTA and GT4.
 - High performance driving events
- For more information, please call 919-741-7151 or visit www.kaizenautosport.com.

Partee Racing – Owns and operates two engine shops: the S62 Shop LLC which specializes in building high-performance and racing versions of BMW S62 V8 engines and the S54 Shop LLC which specializes in building high-performance and racing versions of BMW S54 inline 6 engines. Operated by Peter Partee and Dusty Renteria, formerly the head of Dinin’s Race Engine Shop. The shop is located in VIR’s Virginia Motorsport Technology Park in the Speed Suite Garages. Phone: 917-683-9439, Email: peters@parteeracing.com.

Quantum Speed Works - Quantum is a full-service performance shop focusing on both track and street vehicles of all makes. Services include: track-side support, repair and service, performance modification and full car builds. Quantum also offers on-site storage, car rental, and Arrive-and-Drive services.
