# TEAM BUILDING

## PIT CREW CHALLENGE

**145.00 PER PERSON TWO HOURS**

Pit Crew Challenge is a time, skills and communication focused event. This exercise is your chance to **experience a unique team building program, combining hands on experimental learning with interactive classroom sessions**. Participants will learn delegation and execution of tasks, in a timed skills challenge, a simulated race car pit stop, using former NASCAR race cars\*.

The team must safely and quickly change two or four tires, while being timed and scored by an instructor. As time permits, the teams may encounter simulated damage to the race car that they must repair or remove for the car to remain in competition and for the team to achieve its objective of winning the race.

The objective is to place participants in a mildly stressed environment that forces the individual to perform their duties to the best of their ability, as quickly and precisely as possible, so that the team as a whole achieves the greatest outcome.

*\*Race cars, instructor, pit stop equipment, hearing and eye protection are provided.*

## AUTOCROSS/BLACKHAWK DOWN

**145.00 PER PERSON TWO HOURS**

Autocross is a time and skills challenge where participants navigate a driving course laid out by cones (either on dirt or on the paved skid pad) with multiple skills tests/obstacles around the course, such as slaloms, stop boxes, narrow gates and tight turns. Time penalties are applied to incorrect navigation of course and hitting cones. Black Hawk Down is derived from a military personnel and asset recovery mission during the Battle of Mogadishu, and depicted in the 2001 movie, "Black Hawk Down".

The exercise renders the driver "blind"; (by them wearing blacked-out goggles) and places the front seat passenger in charge of steering the vehicle while providing verbal instructions to the driver as to what amount of input to use and which pedal (gas or brake) in order to safely and accurately navigate around the same Autocross course. Participants will take turns driving and experience the thrill of working together to win this unforgettable event.

*Training vehicles, instructors and cones are provided.*

Land Navigation starts with a fundamental overview course of instruction provided by highly experienced former US Military members. Participants will then depart from a set location and are required to locate a series of checkpoints along their route to their destination. Each team will have an instructor with them to ensure the safety of the team remains paramount.
